## SHEETROCK® Brand TUFF-HIDE™ Primer-Surfacer

#### 1. Identification

**Product identifier** SHEETROCK® Brand TUFF-HIDE™ Primer-Surfacer.

Recommended use Interior use.

**Recommended restrictions**Use in accordance with manufacturer's recommendations.

Manufacturer/Importer/Supplier

Distributor information/Company name USG Middle East Ltd

7410 (WASIL) Street #23, Cross 76 (Right)

Second Industrial City

Dammam 34326 - 4201, Kingdom of Saudi Arabia Tel: +966 13 812 0995 / Fax: +966 13 812 1029

E-mail: info@usgme.com

Website: https://www.usgboral.com/en\_me/

#### 2. Hazard(s) identification

Physical hazardsNot classified.Health hazardsNot classified.OSHA defined hazardsNot classified.

**Label elements** 

Hazard symbolNone.Signal wordNone.Hazard statementNone.

**Precautionary statement** 

PreventionObserve good industrial hygiene practices.ResponseGet medical attention/advice if you feel unwell.

**Storage** Store as indicated in Section 7.

**Disposal** Dispose of in accordance with local, state, and federal regulations.

Hazard(s) not otherwise classified

(HNOC) None known.

### 3. Composition/information on ingredients

Mixtures

CAS number	%
1317-65-3	< 40
1332-58-7	< 5
471-34-1	< 5
12001-26-2	< 5
13463-67-7	< 10
108-05-4	< 8
7732-18-5	< 40
	1317-65-3 1332-58-7 471-34-1 12001-26-2 13463-67-7 108-05-4

**Composition comments** 

All concentrations are in percent by weight unless ingredient is a gas. Raw materials in this product contain respirable crystalline silica as a naturally occurring impurity. Since this product is a liquid slurry, the risk of inhaling particles will not occur during the recommended use of this product.

#### 4. First-aid measures

Inhalation

Exposure to mists may cause temporary irritation to eyes, skin, nose, throat, and upper respiratory tract. Move injured person into fresh air and keep person calm under observation. Get medical attention if symptoms persist.

Skin contact

Rinse area with plenty of water. Get medical attention if irritation develops or persists.

Eye contact

Do not rub eyes. Flush thoroughly with water. If burning, redness, itching, pain, or other symptoms develop or persist get medical attention.

Ingestion

Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Inhalation

May cause respiratory irritation and coughing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer. The development of silicosis may increase the risks of additional health effects. The risk of developing silicosis is dependent upon the exposure intensity and duration.

**Skin Contact** 

Causes skin irritation, redness and rash.

**Eye Contact** 

Causes serious eye irritation, lacrimation, pain and redness.

Ingestion

May cause mild gastrointestinal effect.

Indication of immediate medical attention and special treatment needed

Treat symptomatically

#### 5. Fire-fighting measures

Suitable extinguishing media

In case of fire, use extinguishing media suitable for surrounding fire. Water, foam, dry chemical or carbon dioxide extinguishers can be used.

Unsuitable extinguishing media

None known.

Specific hazards arising from the

substance or mixture

Not combustible.

Special protective equipment and precautions for firefighters

Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Use standard firefighting procedures and consider the hazards of other involved materials.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For personal protection equipment, Refer Section 8. Keep unnecessary and unprotected personnel from entering area. Put on appropriate personal protective equipment.

Methods and materials for containment and cleaning up

Spills: Scoop up. Flush area with water before material dries. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.

**Environmental precautions** 

Avoid discharge to drains, sewers, and other water systems.

#### 7. Handling and storage

**Precautions for safe handling** 

Minimize dust generation when mixing or sanding. Wash hands after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry place. Store in a closed container away from incompatible materials. Protect from moisture. Keep away from heat. Do not use if material has spoiled, i.e., there is a moldy appearance or an unpleasant odor. Keep containers closed when not in use.

### 8. Exposure controls/personal protection

Occupational exposure limits
US. OSHA Table Z-1 Limits for Air

Contaminants (29 CFR 1910.1000)	Type	Value	Form	
Components	PEL	5 mg/m3	Respirable fraction.	
Calcium carbonate (CAS 471-34-1)		15 mg/m3	Total dust.	
	PEL	5 mg/m3	Respirable fraction.	
Limestone (CAS 1317-65-3)		15 mg/m3	Total dust.	
	PEL	15 mg/m3	Total dust.	
Titanium dioxide (CAS 13463-67-7)				

US. OSHA Table Z-3 (29 CFR 1910.1000)	Туре	Value	Form
Components	TWA	0.3 mg/m3	Total dust.
Talc (CAS 14807-96-6)		0.1 mg/m3	Respirable.

US. ACGIH Threshold Limit Values	Туре	Value	Form
Components	TWA	2 mg/m3	Respirable fraction.
Talc (CAS 14807-96-6)	TWA	10 mg/m3	

Titanium dioxide (CAS 13463-67-7)

#### **US. NIOSH: Pocket Guide to Chemical**

Hazards	Туре	Value	Form
Components	TWA	5 mg/m3	Respirable.
Calcium carbonate (CAS 471-34-1)		10 mg/m3	Total.
	TWA	5 mg/m3	Respirable.
Limestone (CAS 1317-65-3)		10 mg/m3	Total.
	TWA	2 mg/m3	Respirable.

Talc (CAS 14807-96-6)

No biological exposure limits noted for the ingredient(s).

Biological limit values

Appropriate engineering controls

Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure.

Thermal hazards
General hygiene considerations

Wear approved safety goggles.

None.

It is a good industrial hygiene practice to minimize skin contact. For prolonged or

repeated skin contact use suitable protective gloves.

Normal work clothing (long sleeved shirts and long pants) is recommended.

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use.

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment separately from regular wash. Observe any medical surveillance requirements.

### 9. Physical and chemical properties

**Appearance** 

Physical stateLiquid.FormSlurry.ColorWhite.

Odor Slight acrylic.
Odor threshold Not applicable.

**pH** 7.5 - 10

**Melting point/freezing point**Not applicable. / 32 °F (0 °C)

Initial boiling point and boiling range212 °F (100 °C)Flash pointNot applicable.Evaporation rateNot applicable.Flammability (solid, gas)Not applicable.

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

**Chemical stability** Material is stable under normal conditions. Possibility of hazardous reactions Hazardous polymerization does not occur.

**Conditions to avoid** None known. Incompatible materials None known.

**Hazardous decomposition products** Above 1472°F (800°C) limestone (CaCO3) can decompose to lime (CaO) and release

carbon dioxide (CO2).

#### 11. Toxicological information

Information on likely routes of exposure

Ingestion May cause discomfort if swallowed. Inhalation

Inhalation of mist may cause irritation to throat and or nasal passages. **Skin contact** The product contains a small amount of sensitizing substance which may provoke an

allergic reaction among sensitive individuals in contact with skin.

**Eye contact** May cause eye irritation.

Symptoms related to the physical,

chemical and toxicological

characteristics Irritation of eyes and mucous membranes. Skin irritation.

Information on toxicological effects

**Acute toxicity** Neither inhalation nor skin contact contribute to acute toxicity of the substance or

mixture. However, may cause discomfort if swallowed.

Direct contact with eyes may cause temporary irritation.

Skin corrosion/irritation Prolonged or repeated skin contact may cause drying, cracking, or irritation.

Serious eye damage/eye irritation

Respiratory or skin sensitization

**Respiratory sensitization** Not classified.

Skin sensitization The product contains a small amount of sensitizing substance which may provoke an

allergic reaction among sensitive individuals after repeated contact.

For detailed information, see section 16.

Germ cell mutagenicity Data does not suggest that this product or any components present at greater than

0.1% are mutagenic or genotoxic.

Carcinogenicity Titanium Dioxide is listed by IARC as possibly carcinogenic to humans (Group 2B).

This listing is based on inadequate evidence of carcinogenicity in humans and suffi-

cient evidence in experimental animals.

Carcinogenicity

IARC Monographs. Overall Evaluation of

Attapulgite (CAS 12174-11-7) 2B Possibly carcinogenic to humans.

3 Not classifiable as to carcinogenicity to humans.

Titanium dioxide (CAS 13463-67-7) 2B Possibly carcinogenic to humans.

Reproductive toxicity Not expected to be a reproductive hazard.

Specific target organ toxicity -single

exposure No data available, but none expected.

Specific target organ toxicity -repeated exposure No data available, but none expected.

**Aspiration hazard** Not an aspiration hazard.

**Chronic effects** See section 16.

#### 12. Ecological information

**Ecotoxicity**The product contains a substance which is very toxic to aquatic organisms.

Persistence and degradability Not applicable.

**Bioaccumulative potential** Bioaccumulation is not expected.

Mobility in soilNot available.Other adverse effectsNone expected.

#### 13. Disposal considerations

**Disposal instruction**Dispose in accordance with applicable federal, state, and local regulations. Recycle

responsibly.

**Local disposal regulations**Dispose of in accordance with local regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products

Dispose of in accordance with local regulations.

**Contaminated packaging**Dispose of in accordance with local regulations.

#### 14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

**IMDG** 

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

#### 15. Regulatory information

CAS # 471-34-1 Calcium Carbonate

CAS # 12001-26-2 Mica

CAS # 13463-67-7 Titanium dioxide

CAS # 108-05-4 Vinyl Acetate Monomer

CAS # 7732-18-5 Water

# 16. Other information, including date of preparation or last revision

**Issue date** 1-July-2018

Revision date - Version # 01

#### **Further information**

Crystalline silica: Since this product is a liquid slurry, the risk of inhaling particles will not occur during the recommended use of this product. However, this product contains crystalline silica. Prolonged and repeated exposures to airborne free respirable crystalline silica can result in lung silicosis and/or lung cancer.

Vinyl acetic monomer, formaldehyde and acetaldehyde: Trace amounts of vinyl acetate monomer and formaldehyde may be found in this product.

Attapulgite: Carcinogenic to experimental animals via a route of exposure not relevant to human exposure. However, because this product is a liquid slurry, the risk of inhaling particles will not occur during the recommended use of this product.

Skin Sensitization Potential: This product contains an amount of Triazinetriethanol (THT) (CAS No. 4719-04-4) that is below the approved EPA regulated limits. THT can act as a sensitizer. Numerous human studies with concentrations up to 1% yielded negative (no sensitization) results. However, some results showed positive reactions in concentrations <0.5% mostly in persons with eczema.

Ethylene glycol is added to this product in trace amounts to prevent freezing in transit.

NFPA rating:

Health: 1

Flammability: 0 Physical hazard: 0

Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe
